

67,010-090; H2616-ED

**REMARKS**

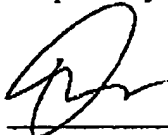

Applicant has amended this application in response to the office action. Claim 1 has been amended to incorporate the limitations found in prior claim 8, and is thus allowable. In addition, claim 4 is represented in independent form and is also allowable.

Claim 9 has been amended to make clear that the system has a skid mounting a plurality of motors, and that the motors are associated with fluid-handling devices. The claim 9 stands rejected over Palleggi, et al. and Katagiri, et al. Neither of these references disclose a skid, nor plural fluid-handling devices that are controlled by the multi-motor controller. The Palleggi, et al. patent discloses a pump, however, the claim requires a plurality of fluid-handling devices all being controlled by the multi-motor controller.

Applicant has attended to the other formal issues raised by the examiner. All claims are thus allowable.

Applicant believes that no additional fees are necessary, however, the Commissioner is authorized to charge Deposit Account No. 50-1482 in the name of Carlson, Gaskey & Olds for any additional fees or credit the account for any overpayment.

Respectfully submitted,

Theodore W. Olds, Reg. No. 33,080  
Carlson, Gaskey & Olds  
400 W. Maple Road, Ste. 350  
Birmingham, MI 48009  
(248) 988-8360

Dated: June 14, 2005
